GAA’s Physical Activity Guidelines

[CLUB NAME] aims to create a supportive environment in which it already promotes physical activity for all its members and the wider community, to make the Association a healthier place for everyone to enjoy. The club is committed in supporting a whole club approach to embed and implement the following physical activity guidelines.

In line with Healthy Ireland’s National Physical Activity Plan the below guidelines aim to:

- **Educate** members and the wider community on the recommended levels of health enhancing physical activity guidelines
- **Acknowledge** the work GAA communities are already doing in promoting physical activity and alternative ways the club can support physical activity for its members and the wider community

**How much physical activity should we be doing?**

➢ **Children and juveniles (aged 2-18)**  
Children and juveniles should be active, at a moderate to vigorous level, for at least 60 minute every day. Include muscle/bone strengthening and flexibility exercises 3 times a week.

➢ **Adults (aged 18-64)**  
Adults should be active for at least 30 minutes a day of moderate activity on 5 days a week (or 150 minutes a week).

➢ **Older adults (aged 65+)**  
Older people should be active for at least 30 minutes a day of moderate intensity activity on five days a week or 150 minutes a week with a focus on aerobic activity, muscle strengthening and balance.

➢ **Adults with disabilities**  
People with disabilities should be as active as their ability allows them to be. Aim to meet adult guidelines of at least 30 minutes of moderate-intensity activity on 5 days a week.

The key message is that physical activity is for everyone, and any level of activity is better for your health than none.
